- The break should not exceed pH of 9,5; use low pH non-ionic detergents.
- To prevent pilling on other mats, Cotton mats should not be washed with mats made of Nylon or other synthetic carpet yarns.
- Do not over-dry mats; Basket-temperature of the dryer should not exceed 82 °C.
- Insure that cotton mats are thoroughly dried to prevent mildew from forming in the cotton yarn.
- Lay mats flat following removal from washer; allow mats to cool before rolling.
