

StepWell™ OptiBrush

Specialty Mats • Indoor

Reduce the risk of contamination and the spreading of bacteria in your facilities by disinfecting the treads of shoes and boots at the entrance. Fill the mat up with disinfectant solution of your choice and the Stepwell™ OptiBrush will deliver it to the bottom of shoes and boots. The brush carpet surface cleans the soles of footwear before they leave the mat providing you with a safer and cleaner facility.

- Spill Control borders allow for containment of up to 4,1/m² liter of disinfecting liquid.
- Brush fibers scrub soles clean.
- Nitrile rubber backing offers excellent slip resistance.
- Standard sizes applicable in most doorways.
- Works best with Quaternary Ammonium and hydrogen peroxide sanitizing solutions; can be used with chlorine bleach if diluted.
